DISTRICT COURT IS HELD IN TUCUMCARI

Body of Well Digger Recovered by Son by Sinking a New Shaft.

Tucumcari, N. M., Oct. 17.—District court convened here Monday with a full docket, the term to last four weeks. Judge McPhee will preside the first two weeks and Judge E. R. Wright the latter part of the term, attorney H. H. McElroy prosecuting the cases for the state. Dates for the hearing of most of the cases have been set.

Lee Anderson of this city and Miss Lulu Bryan of Weatherford, Texas, were married at the home of the bride and have returned to Tucumcari to make this city their future home. Both are well known in Tucumcari.

Recover Well Digger's Body.
D. E. Goss, a son of H. Goss, the well digger who was killed in the well which he was digging and drowned, took charge of the body of his father and interred it at Sunnyside cemetery Friday. It was found necessary to sink an entirely new shaft in the well to a depth of 50 feet, before the body could be taken from the scene of the accident. The family which survive are at present at Seminole, Okla.

New Pastor for M. E. Church.
Rev. J. F. Hedgepeth of Artesia has been appointed to succeed Cass L. Brooks, as pastor of the M. E. church, south, in this city. Rev. Mr. Brooks and family having removed to Fort Townsend, Okla., where he has a pulpit. The appointment of Rev. Mr. Hedgepeth is generally appreciated, as he is well known here, having been pastor in this city during the early days of the town and being a brother of Lewis and John Hedgepeth, who only recently left here to go to Arizona. Rev. Mr. Hedgepeth and family will take up their residence at the new parsonage on Center street.

C. L. Justice of Santa Rosa, formerly occupying a position in the bank here, has a position with the First National bank of Tucumcari, as assistant cashier.

Musical Arrested.
A man by the name of Goldberg, who has been in Tucumcari for several months as an employee of the Tucumcari Laundry company, being in charge of the cleaning and dyeing department, was arrested on information furnished by the captain of the territorial ranger at Santa Fe, on a charge of obtaining money on false pretenses and for the alleged swindling of a bank in Colorado. Officers arrived from Colorado and took the prisoner away. He was a member of the Tucumcari band while in this city, being a good musician.

Jones Recovers From Accident.
The Jones is able to attend to business again after an exciting experience with a horse a few days ago. He was mounted on one animal and leading the other, when the second horse suddenly became unmanageable and, rising upon its hind feet, struck him viciously, knocking him off his mount and threatening to finish him under its hoofs. Timely aid rescued him and medical assistance was summoned, nine stitches being required to close the wounds in his neck and shoulder.

Dr. H. D. Nichols and family have returned from Pennsylvania. Mrs. Nichols has been spending the summer at her relatives, the doctor going to accompany her home.

BRASSELL IS RECOVERING.
Manuel Braswell, the youthful Mexican-American shot through the left lung, appears to be recovering at Hotel Elc. He has passed the time of an expected death. The youth's father is here from Mexico.

BRASSER'S FOOD
Try this food and you will find it the best breakfast food ever eaten. It's most nutritious, being made from Wheat, Rice, Oats and Barley.

Ask your Grocer.

CIVIL SERVICE COMMISSION AND THE GOVERNMENT PRINTING OFFICE

(Continued From Previous Page).

where universal education and individual enlightenment find their best expression, should the government nation in the dissemination of all classes of governmental literature. It costs Uncle Sam at least \$20,000,000 a year to carry on his printing and publishing business. Of this \$20,000,000 is expended in the printing of the literature and at least \$12,000,000 for its preparation. There are a thousand different important books and pamphlets printed every year by the government, to say nothing of the large number of circulars, bills and other small jobs. There are several daily, a number of weekly and many monthly publications issued by the government. These range in importance from the congressional record to the monthly summary of commerce statistics, issued by the bureau of statistics.

Building a Costly One.
The building in which the big printing establishment is housed cost more than \$2,000,000. The entire plant is valued at upwards of \$15,000,000. The aggregate number of pieces of printed matter sent out is so large that the officials no longer keep accurate account of them. As far back as 1907, 55,000,000 pieces were turned out, and 55,000,000 pages of type were set up. The appropriate printing of the office amount to approximately \$6,000,000 a year, which represents three-fourths of the printing expenses of the government. The major portion of the government printing office is done outside of the city of Washington.

In spite of the fact that every known practicable labor-saving machine is used at the government printing office, the force required is paid \$4,000,000 a year, and there is an appropriation of more than \$300,000 for leaves of absence. It requires \$1,000,000 worth of paper and \$600,000 worth of other material for a year's operations.

One reason for the expense of the government printing office is the immensity of Uncle Sam's printing plant when he considers how great are the little things about it. In 1909 \$2000 worth of soap was used, \$23 worth of screw drivers, \$52 worth of pens, \$200 worth of lead pencils, \$2000 worth of lubricants and 24 tons of printers' ink. Waste paper is reduced to a minimum, yet in that year \$11,000 was derived from its sale. The big plant has acres of floor space, every available square foot of which is occupied.

Much Machinery Used.
When one goes through the government printing office he finds many wonderful things. One room has about 50 linotype machines, the largest number to be found in a single room anywhere in the world. In another room are melting pots so large that they hold 15 tons of molten metal. In another room presses are found whose combined output is more than 1,000,000 impressions every hour. Among all the 87 presses in this room there is not a pulley or a belt in sight, each machine being operated by its own individual motor. The printers' ink is applied to 40 tons of paper every eight hours. There are card presses which turn out 500,000 cards a day.

The job office is also the biggest of its kind in the world. It turns out more job work in a single day than the average plant can turn out in a full week. Everything in the way of perfect equipment is found in this plant. On the same floor with the job office is the office of the public printer, which has the reputation of being the most finely furnished office in the entire building service.

Always Ready for Extra.
The government printing office is ready at all times to respond to a hurry call. When the naval court of inquiry into the destruction of the Maine made its report, president McKinley transmitted it to congress one afternoon. The next morning it was printed and the hands of every member of the senate held a copy of the report. The report contained 24 full page illustrations, one lithograph in colors, and nearly 300 pages of printed matter. When the congressional inquiry into the sinking of the Maine was held, the government printing office required only 36 hours to print and deliver to congress the 2000 page report of that inquiry. Its prompt work during the revision of the tariff last year was fully as remarkable as these performances.

With its hundreds of compositors and proof readers, there would be a wide diversity of style were it not for the adoption of a manual of style which is strictly adhered to. This style book is said to be the most complete in the United States, although it is very different from the styles used in the newspaper offices of the country.

Congress makes the largest demand upon the government printing office. Its annual printing bill amounts to more than \$2,000,000. The congressional record and the printing of hearings, committee reports and bills demand a major portion of this amount. Next in importance is the patent office. The Patent Office Gazette is a large weekly volume, dealing with patents issued, and giving the specifications of each one of the thousands of patents granted. It is the publication which gives the patent office second place among the different organizations of the world in the consumption of printers' ink. The department of agriculture ranks third as a user of printers' ink, requiring \$2,000,000 a year to pay the printing bill of that department. Its most important publication is the year book, of which 500,000 copies are issued annually.

Some Big Jobs.
Nothing is too exacting for the government printing office to undertake. The rebellion records, published in 124 volumes, and requiring a 1200 page index, perhaps for generations will remain the world's greatest single undertaking in the printing line. These records contain more than 100,000 pages of printed matter, requiring in their publication 80,000 reams of white paper, and more than 3,000,000,000 ems of type. The whole edition comprised about 1,500,000 volumes. When the United States wanted to publish a history of the capital it demanded that the completed volume should be one of the finest examples of the printer's art to be found. Although sold at bare cost of production, exclusive of the cost of the plates, the price of this work is \$10.

In order that every citizen may have full opportunity to possess himself of as many of the government publications as he desires, the office of superintendent of documents has been established. This office is furnished with a supply of all valuable publications, and is expected to use such means of advertising as will bring them to the attention of the public generally. They are sold at the bare cost of the material used in printing and the labor involved. In figuring this cost the government

does not make any charge for composition. The superintendent of documents has serious competition to meet. Nearly every publication he has for sale may be obtained by the average man or woman through his or her congressman. The majority of people are aware of this fact, and write directly to their representative in congress for the public documents they desire. The government also distributes, free of charge, to the public libraries as desired them, copies of all important government publications. The majority of those who have occasion to refer to these publications go to the library to consult them.

Cutting Expenses.
It is the opinion of many newspaper men that the government's printing bill might be cut in two if a proper system of editing were in vogue. In the recent printing investigation it was stated by an authority that two out of three of the public documents issued by the government could be boiled down to half their present size without the omission of any material fact. The investigation has served already to diminish the size of hundreds of the annual reports of the different bureaus and divisions of the government.

Tomorrow - Miscellaneous Federal Organizations.
MANY NEW BUILDINGS ARE BEING ERECTED AT VAUGHN.
Considerable Interest Manifested in El Paso Fair; Many Sheep Killed; Hunting Season Opens.

Vaughn, N. M., Oct. 17.—Deputy sheriff Abel Vaughn is building an adobe residence on Cedar street, south of the Hot Springs hall. W. F. Tudor is putting up a rooming house in East Vaughn. E. C. Sims has finished his new store, which he will occupy with a stock of general merchandise. Hall's grocery store on Cedar street is finished. It has a glass front and inside walls of cement with the ceiling of lead proof barn and oil on the rear lot. Mr. Hall will commence to move his stock this week. A. E. Lucas will move his business from the building vacated by B. F. Hall. An adobe school building is being erected in East Vaughn. Hugh Goldenberg was in from his ranch looking for sheep herders and ranch men.

J. E. Jeffries went to Encino to bring in a herd of his sheep. C. M. Monroe put up a new bell in the school house. Pedro Lucero gave a dance in his store just completed on Tenth street. W. K. Hodges is having a clean put down and other improvements on his place on Cedar street.

The El Paso fair is arousing a good deal of interest among the Vaughn people. Quite a number are planning to attend. The hunting here has opened. Allen Riggs, N. K. Hall, H. M. Hall, Edgar Booth will leave this week for a 10 days' trip in the Capitan mountains.

MANY BIRDS RECORDED IN THE MORMON COLONIES.
Cave Valley Woman Dies Following Accidental Death of Husband—Surviving Son Seriously Ill.

Colonia, Dublan, Mexico, Oct. 17.—Mrs. Mamie Lebrun has returned to her home, after an absence of several months in Arizona. Born, to Mr. and Mrs. Albert Hurst, a son; to Mr. and Mrs. Hansen of Guadalupe, a son; to Mrs. J. M. Turley of Colonia Juarez, a son.

When Mr. Bowman and Mr. Payne went to Colonia Diaz to fill their missionary appointment, Mrs. Bowman and Mrs. Payne accompanied them as representatives of the primary association.

Notes From Colonia Juarez.
While Virus, son of Calvin Allred, was playing with his shotgun, it exploded, sending part of the shot into his eye and severely injuring it. It is hoped that the sight can be preserved. Mrs. Malissa Wilson entertained the primary workers at her home. Bishop J. C. Bentley is very ill. He is under the doctor's care. Mrs. Lebrun and Mrs. Palmer, both typhoid patients, are improving. Mrs. James of Cave Valley died in Colonia, Dublan. Her husband was killed some time ago accidentally, at the same place. Her son Arlos has typhoid fever in Colonia Dublan.

TORREON HAS BOOM IN BUILDING OF DWELLINGS.
Torreon, Mexico, Oct. 17.—Lazaro de la Garza, a wealthy man, who has made a fortune from his Maximo mines, is placing material on the ground on various blocks which he owns in this city and will build a number of resident houses. It is stated that plans have been made and secured for more than a dozen houses to be erected on a modern plan. There is a building boom on at the present time and new resident houses and business blocks are going up all over the city.

Building material has been placed on the ground for the row of handsome cottages to be constructed near the new Alameda. These houses will be pleasantly located and erected with all the modern conveniences.

TO OBSERVE SPECIAL WEEK OF PRAYER AND STUDY.
Pecos, Texas, Oct. 17.—It is the custom of the Home and Foreign Mission society to set one week for special study and prayer. In accordance with this custom a special offering will be taken this week for the work of evangelization in Cuba and the West Indies. The following program will be carried out:

Leader, Mrs. G. Standiford; bible study for October, Mrs. W. Runkles; Ruth Hargrave Institute, Mrs. S. G. Douglas; "The Surrendered Life," Mrs. Clark; report from annual meeting at Artesia, by Mrs. Albert Sisk, delegate.

W. P. BLACKMAN BURIED.
Roswell, N. M., Oct. 17.—The funeral of W. P. Blackman of Chicago, who died here at St. Mary's hospital, was held from the Dilley mortuary, the service being conducted by Rev. Dr. W. C. Alexander, pastor of the First Presbyterian church. Burial was made in Southside cemetery. It was thought at first that the body would be shipped to Chicago for interment.

EBARISTO BAIZA DEAD.
Roswell, N. M., Oct. 17.—Ebaristo Baiza, a native and prominent citizen, who has resided here for many years, is dead at his home in this city. Burial was made in the Berrendo cemetery.

POPULATION LOSSES IN NEW MEXICO

Oil Company of Alamogordo Incorporated; Important Case Concluded.

Santa Fe, N. M., Oct. 17.—A regrettable loss of population in the dry farming counties caused by the drouth is disclosed by the school census returns. The school population of Quay county has been reduced since last year from 4719 to 3674, a loss of more than 22 percent. Curry county from 3873 to 2150, a loss of almost 20 percent; Roosevelt from 4483 to 3947; Bernalillo from 7843 to 7321; Otero from 2485 to 2304; Sandoval from 2636 to 2021; Socorro from 4150 to 4367. These losses are in part offset by gains in Chaves county 5300 to 5530, Colfax from 3755 to 4061, Lincoln from 2276 to 2311, Taos from 3782 to 3902 and Valencia from 2321 to 2449.

The La Luz Oil company of Alamogordo, half a million dollars capital, filed incorporation papers. The incorporators and directors are: E. F. Hoergerman, Charles Johnson, J. H. Hogan, William Gorbach and T. L. Hatfield.

Associate justice John R. McPhee of the supreme court has closed the hearing on the motion made on behalf of N. C. Hunter and other creditors for the removal of Charles C. Murray of Pittsburgh, Pa., as receiver of the New Mexico Central Railroad company. It is alleged by the creditors that Mr. Murray's appointment was brought about by collusion and fraud; that in conjunction with Harrison Nesbit and J. B. Finley of Pittsburgh, he represents the old Santa Fe Coal bondholders, and that he is also receiver of the Enterprise National bank of Allegheny, Pa., which holds claims against the railroad and that by reason thereof he is biased and a party in interest and disqualified to hear the case.

At the conclusion of the argument the judge took the matter under advisement and it will be several weeks before this decision which involves the New Mexico Central railroad and \$2,000,000 worth of property will be announced.

MANY FINES AT ROSWELL ON LIQUOR VIOLATION CHARGES.
Fruit Collected for Chicago Exposition—Two Farms Sold for Good Prices—Building Improvements.

Roswell, N. M., Oct. 17.—The following cases of alleged violations of the prohibition ordinance have been disposed of by police Judge A. J. Welton: Charles V. Montgomery, two cases \$100 and costs in each, and one case \$150 and costs and 30 days in jail; total fine, \$350 and costs. D. R. Patrick, two cases \$500 and costs in each and 30 days in each and 30 days in jail; total fine, \$900 and costs. Owing to a plea of guilty when arraigned several weeks ago and other extenuating circumstances, John Puriance was fined only \$50 and costs and no jail sentence. Montgomery and Patrick appealed.

The Roswell Commercial club committee is now gathering the collection of fruit and farm products for Roswell exhibit in the Chicago International Irrigation exposition. More than \$1200 needed to bear the expense of making the exhibit has been subscribed and Roswells' interests will be well looked after.

The completion of the heavy concrete walls and floor of the basement for the addition to the Citizens National bank, the seven and a half weeks' run of a centrifugal pump, worked by an electric motor, was tonight to lift the water from a temporary well in which it was conducted from a drain on the outside of the footing course, has closed. Heavy tarred paper was put in the center of the walls and concrete was poured and reinforced with twisted steel.

J. N. Moore has bought H. Hadley's 160 acre farm under the Hondo reservoir, about three miles southwest of Roswell, for \$3500. Hadley has sold his 160 acres of dry land, about four miles north-west of Roswell, to J. R. Weaver for \$1200.

PECOS EXPECTS CATTLE SHIPMENTS TO INCREASE.
Large Shipments Made Last Week to the Various Markets by Pecos People.

Pecos, Texas, Oct. 17.—Cattle shipments from Pecos to Fort Worth and other packing centers from the Pecos valley country are being made daily. Johnson and Cowan having shipped about 400 head the past week to the Pecos stock yards. The shipments of cattle from this section, which have been going largely to Fort Worth, will be partially or wholly diverted to El Paso when the new Morris packing house is opened in and around Pecos and throughout the Pecos and Toyah valleys settle up, larger and larger shipments of cattle may be expected, and while many are of the opinion that the industry will gradually disappear in this section as the country settles up, those more familiar with such matters are of an entirely different and contrary opinion. They state that instead of this section owing a vast feeding ground for cattle to be shipped and fattened farther north, that the farmers coming in will all have a few cattle which will be fed partially on alfalfa and corn, together with milo and alfalfa and kaffir corn, and thus, in reality, as the country settles up, more and better grade of cattle will be available for the packeries.

Will Increase Hog Raising.
In addition to this, the new packeries will have a strong tendency to increase hog raising, and this will become an important industry in these valleys. Scientific men, familiar with the growth of the hog raising industry, unanimously agree that where alfalfa can be grown in large enough quantities and at not too high a cost value, that such a country is well adapted to hog raising, and it is because of this that a great growth in the hog industry is to be expected in the new irrigated valleys in the vicinity of El Paso.

BIG ROSWELL BUILDING DEAL DECLARED OFF.
Roswell, N. M., Oct. 17.—H. L. Stevens of H. L. Stevens construction company and A. G. Frost, architect, left for their home in El Paso, after a fruitless trip here to close the contract with Rev. E. E. Allison, who proposed to build a four story, reinforced concrete building.

SENTENCE SERMONS IN PULPITS OF EL PASO

To take Texas for Christ means more for the evangelization of the world than any other spot on the globe.—Rev. R. T. Hanks, Calvary Baptist church.

We should look constantly unto Jesus as the God man, the only Savior and redeemer who has tasted death for every man.—R. B. Smith, First Baptist church.

If we realize the common gifts, we would be a kinder neighbor, a kinder friend, a kinder Christian.—Rev. L. E. Martin, of Alamogordo, at Houston Square Baptist church.

From the encouraging reports received from our missionary in Japan, the outlook for the acceptance of the Christian religion is most flattering.—Rev. C. L. Overstreet, First Presbyterian church.

Conect the life of the business world with the church, and the life of the Christian with business, and we'll have a most consistent Christian and better business.—Rev. C. R. Womeldorf, at Westminster Presbyterian church.

The immense importance of clean athletics for boys lies in the fact that the ideas they get from the director, in this physical heroworshipping period, of fair play, honor and manliness, are the standards they carry on, unconsciously but none the less surely, in to their domestic business and political life.—H. B. Durkee, secretary of the Y. M. C. A. at the First Christian church.

Man with all his genius and ability makes nearly everything, in the natural world, administer to his wants and pleasures, and yet he cannot even create a blade of grass, much less a blushing rose or a singing bird; he cannot tell the number of stars, nor, unaided by revelation, from whence he came, nor whether he is bound, but the Lord Jesus can, who hath made all, and knoweth all.—Rev. Frank W. Otto, First Methodist church.

BISHOP KENDRICK TO BE AT ROSWELL

Arizona No Longer to Be In Field of Church Labor.

Bishop J. M. Kendrick will in future make his headquarters at Roswell, N. M., and Arizona will no longer be included in his territory, a new diocese having been created owing to the large area heretofore included in his district which made it almost impossible for him to cover all the ground. This action was taken at the triennial convention of the Protestant Episcopal church, just closed in Cincinnati, O.

Among other important steps taken at the convention was the appointment of a committee to investigate faith healing by means of prayer or suggestion.

There was a stir in the convention when it was announced that the house of bishops had adopted a resolution calling for a committee to investigate the use of the sick for the healing purpose rather than spiritual needs. The resolution had been adopted by the clergy but defeated by the laity.

A commission has been appointed to revise the translation of the common book of prayer into Spanish. The members of this commission are bishops Brent, of the Philippine Islands, Van Buren of Porto Rico, Aves of Mexico and Knight of Cuba.

Rev. Henry Easter, pastor of St. Clement's church in this city, attended the convention.

BAPTIST MINISTER LEAVES NEXT WEEK

Dr. Smith to Preach Farewell Sermon at First Baptist Church Sunday.

Rev. Robert Bruce Smith will preach his farewell sermon at the First Baptist church next Sunday and will leave early next week for Parkersburg, W. Va., where he will assume the pastorate of his old church.

No one has been called to fill the vacancy caused by the resignation of Mr. Smith here but a call will probably be extended this week.

The Houston Square Baptist church will attend Mr. Smith's farewell preaching service in the First Baptist church next Sunday morning and at night. It was under the pastorate of Dr. Smith that the work which led to the establishment of this new church began eight years ago. During all of these years he has been untiring in fostering this work and he presided over its organization as an independent church. He has many friends in the new church who voluntarily adjourned their service for next Sunday that they may hear his farewell sermons.

MANY NEW RESIDENTS ARRIVE AT MONTEREY.
Dance Is Given by Monterey and Tularosa Young Folk—Many Horses Are Sold by Local Owners.

Monterey, N. M., Oct. 17.—L. E. Lumley has gone to Waskara, Texas, with a car of horses.

Niel Hays is here with Mr. Fall's mare, which he is taking to the Falls ranch at Three Rivers.

Walter Hyde and family are here from the Elephant Butte dam. They expect to locate here.

The dance given by the young men of Tularosa and Monterey, at the Wilson hall. Among those present were: Messrs. J. D. Patton, William Sanders, William Lumley, John Graves, John Hyde, Oscar Hyde, Wilton Hyde, Bob Carr, "Bud" Nelson, Guy Kenyon, Niel Hays, Verner and Cuba Clayton, Ernest Spillers and William H. Bourne; Misses Hallie and Annie Lumley, Edith Mc-

REGULATES YOUR KIDNEYS ENDING BACKACHE AND BLADDER TROUBLE.

A few doses of Pape's Diuretic will put your Kidneys in order.

Don't wait until it settles into Dropsy, Gravel, Diabetes or Bright's Disease—the time to cure kidney trouble is while it is only a trouble.

The moment you suspect any kidney, bladder or urinary disorder, or feel a constant or dull aching in the back, sides or loins or the urine is thick, cloudy, offensive or full of sediment, irregular of passage or attended by a sensation of scalding you should begin taking Pape's Diuretic as directed, with the knowledge that there is no other medicine, at any price, made anywhere else in the world, which will effect so thorough and prompt a cure.

Pape's Diuretic acts directly upon the kidneys, bladder and urinary system; cleanses, vitalizes and regulates these ducts, organs and glands, ending at once such miserable symptoms as lame back, headache, dizziness, weakness, Prostatic trouble, nervousness, rheumatism and darting pains, inflamed or puffy eyelids, irritability, bilious stomach, worn-out feeling, sleeplessness or suppressed, painful or frequent urination (especially at night) and other distress.

Don't be miserable another moment, when a lame back or clogged, inactive kidneys or bladder misery, for after taking Pape's Diuretic a few days you will be relieved and know all danger is passed.

Your pharmacist, physician, banker or any mercantile agency will vouch for the responsibility of Pape, Thompson & Pape of Cincinnati, Ohio, who prepare Pape's Diuretic—30 cent treatment—sold by every druggist in the world.

Hood's Sarsaparilla

Cures all blood humors, all eruptions, clears the complexion, creates an appetite, aids digestion, relieves that tired feeling, gives vigor and vim.

Get it today in usual liquid form or chocolate tablets called Sarsatabs.

of \$2250 and costs, was the only civil suit tried.

George A. Olney met with an accident in returning to Safford, as he was driving his runabout turned turtle. No one was hurt, beyond a few bruises and scratches. The runabout is out of commission for the present.

CLOUDCROFT COUNTRY ROADS ARE REPAIRED BY FARMERS.
Bridges Are Also Being Renovated—New Residents Are Nearly Completed—Visitors at Croft.

Cloudcroft, N. M., Oct. 17.—The country roads and bridges are being repaired as the farmers can spare the time from threshing.

Mr. and Mrs. Shannon and family expect to move the first of this week to the house lately purchased by them on the street leading to the schoolhouse.

The home of Mr. Shannon in the park is rapidly hearing completion.

Miss Knott, who has been in El Paso for some time, is visiting her brother. Little Carl Hanson has been quite ill for a few days, but is much better. Mrs. G. W. Brockheimer has returned to her home in Marshall, Texas. She expects, however, to return in a few weeks and stay here through the winter.

ALL OF THE DEAD ARE RECOVERED FROM MINE
Twenty-Seven Starville Victims Buried Sunday and Eight on Monday.

Starville, Colo., Oct. 17.—All of the 34 bodies of miners entombed in the local mine of the Colorado Fuel and Iron company by an explosion October 8, have been recovered. Twenty-seven were buried Sunday, seven of the bodies being taken to the cemetery in cars.

The bodies were transported on a big van. Many of them were not identified. The remaining eight were buried today. Mine officials hope to have the mine in working order by November 1.

WASHINGTON PAPERS COMMENT ON BULL FIGHT IMPLEMENTS
The exhibition of bull and cock fighting implements, sent by Dr. T. A. Eray to the International Humane congress at Washington, is attracting much attention. Mrs. Bray, in attendance, made an address on the horrors of bull fighting, and was the subject of a lengthy article in a Washington daily.

MRS. W. L. BRANCH DEAD.
Roswell, N. M., Oct. 17.—Mrs. W. L. Branch, 51 years, is dead at her home at Dexter after a short illness of pneumonia. She is survived by husband and three children. Deceased was a most estimable woman. The funeral was conducted by Rev. Andy Dies of the Church of Christ in this city. The body was sent to the old home in Cottonwood Falls, Kan.

Doing Their Duty.

Scores of El Paso Readers Are Learning the Duty of the Kidneys.

To filter the blood is the kidneys' duty. When they fail to do this the kidneys are sick.

Backache and many kidney ills follow. Urinary trouble, diabetes.

Doan's Kidney Pills cure them all. El Paso people endorse our claim.

Mrs. Blanche Cleaver, 1223 E. Overland St. El Paso, Texas, says: "For eight years I was subject to attacks of kidney trouble. If I took cold, it invariably settled in my kidneys and caused a dull ache in my back and right hip. There was also a soreness across my loins and I had chills. The kidney secretions were scanty and distressing in passage and caused me much annoyance. About a year ago my complaint became worse. Doan's Kidney Pills were finally recommended to me, and procuring a box at Kelly & Pollard's Drug Store, I began their use. They strengthened my kidneys and proved of benefit in every way."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

THE RIGHT PLACE

To buy your hay, oats, grain, flour, seeds, etc., is here if you want the best quality at the right prices. We solicit a trial order to prove how well we can serve you.

O. G. Seeton & Son
Third and Chihuahua Sts.
